

# NABILAH ARGYANTI ARDYNINGRUM

[nargyanti@gmail.com](mailto:nargyanti@gmail.com) | [0822-5722-9963](tel:0822-5722-9963) | <https://nargyanti.github.io> | <https://linkedin.com/in/nargyanti>

I graduated in Informatics Engineering and have one year of industry experience. My main interests are web development and data processing. I am skilled in creating web applications, especially using Laravel. Currently, I'm exploring new web technologies and learning how data processing can solve practical problems effectively.

## EDUCATION

---

### Politeknik Negeri Malang

(Aug. 2019 – Aug. 2023)

Applied Bachelor of Informatics Engineering - GPA 3.91

Developed a recipes recommendation system based on ingredient availability and user preferences for the thesis, using Django as the backend system, content-based filtering and collaborative filtering using Python as the recipe recommendation methods, with Vue.js for frontend development.

## WORK EXPERIENCE

---

### PT Semangat Bersama Entrepreneurship
